

The Gift of Human Rights – A Spirituality for Our Times

The workshop is for anyone who wants to explore more deeply the spiritual dimensions and implications of the Universe Story and our gradual awakening to universal nature of Earth/Human Rights and Freedoms. The sentiments expressed in the Universal Declaration of Human Rights signed by the nations of the planet in 1948 after the devastation of World War II will inform our reflections on our evolving spiritual journeys and the burning rights issues of our time.

Sunday July 16 and Monday July 17 - 2017
